## PEPPER'S PEN

Believed to Have Written Only the Truth About Cuba.

Selected for High Character and Impartiality to Investigate That

Charges that West Unfairly Attacks Spain

Side Refuted.

Washington, May 31. The attempt of an Havana newspaper to impugn and advance the report that was made to the President by Special Commissioner Calhoun, has been exposed as a lie, which has been printed as coming from Mr. Pepper's personal friends of the newspaperman to his discredit. The letters have been printed in the Washington Star, and the reporter has directly under the eye of Congress and the diplomatic corps and have doubtless been used by the press for reports to their governments.

It is believed that they would otherwise be of Mr. Pepper's high character. The proprietors of the Star selected Mr. Pepper to visit Cuba and report for this and no influence from friends of Mr. Calhoun.

The Spanish government has issued a denial of the report that his plan to force Russia to declare war against Turkey.

AMBASSADORS TRYING TO INDUCE TURKEY TO PROLONG ARMISTICE

In Case Peace Negotiations are Not Concluded Before Expiration.

Constantinople, May 31. The ambassadors are trying the Turkish government to prolong the armistice until the event of the peace negotiations now being conducted between the European powers.

The Greeks' government has issued a denial of the report that an anti-peace movement is on foot and it was due to the intervention of the British Foreign Office.

The British government has issued a denial of the report that the Czar of Russia would immediately declare war against Turkey.

Constantinople, May 31. The ambassador of the Standard to Constantinople telegraphs that the prevalent opinion there is that the Czar will declare war in order to force Russia to do so.

GORIANI PLAYING BOLD GAMBLE.

London, May 31. The correspondent of the Standard to Constantinople telegraphs that the Czar will declare war in order to force Russia to do so.

ATHLETIC CARNIVAL.

Watertown, the Great Athlete, Diana--The Event of May Day.

New York, May 31. The Memorial Day carnival of athletic sports held by the grounds of the New Jersey Athletic Club at Bergen Point was one of the most successful to moments ever seen in the history of the club. The principal features of the games were the first public appearance in this country of John Flanagan, the hammer thrower of Ireland and England, and the clash of the British and American teams of forty men each.

The games were opened at 1 p.m.

Do Not Abuse The Privilege.

In another column this morning, we publish Major Heav's general instructions to the police in connection with the use of bicyclets. A considerable portion of the original order prohibiting the use of bicyclets on the sidewalks has been rescinded. With the exception of certain specified streets, which may be used on the sidewalks. [Note, Let me ride, of bicyclets demonstrate that they are perfectly safe on the part of the Mayor by not abating the privilege.]

In the first place, notice that every biker knows the streets where riding on the sidewalks is forbidden. In particular, those who avoid them or immediately dismount when passing through said streets. In the next place, use every possible caution. Ride slowly, and do not fail to recognize the rights of other people. It is better to dismount when passing a person walking rather than take any chance of a collision. Do not use the sidewalks when the streets are in condition for riding. Do not ride after dark, at least not near a lamp. Pedestrians should remember that, when the bicycler bell rings it is not, as some might suppose, a preparatory noise to "get out of the way," but merely a notice that a wheel is approaching. By following these suggestions, bicyclets may fully enjoy the privilege granted by the order without causing any difficulties.

Some Pertinent Facts.

The editor of the *Portsmouth Argus* makes a very forcible attack upon the turnstile and other evils of the increased duty on tobacco and its indulgence. His indulgence is evidently greater than his knowledge of the matter he speaks so glibly of. It scorns the idea that an increased duty is necessary, basing his position upon the uncontradicted statement of Senator Jones, of Arkansas, that tobacco from the United States is selling at a profit in London at less than two cents a pound! Possibly our friend the *Argus* has heard of Senator White of California. Whether that is so, or not, is a Democrat with a proslavery record, and a proslavery record is referred to in the Congressional Record. Now if it will not be argued that this Congressional Record it will also say that this same Senator White contradicted the statement of Senator Jones the moment it was made. He did stand that it was "an absurdity" and that "nobody was gullible enough to believe the statement." He overlooked the fact that that paper is the exponent of the rule, the circular from which Senator Jones drew his misinformation was discredited, as soon as could possibly be done.

So far for the London story. Senator White, a Democrat, it must be remembered, in the same speech had published a schedule showing the history of the tobacco industry, showing that the price of tobacco had increased from thirty-five cents in 1851 to twenty cents a pound in 1856. Certainly nothing in these facts detracts from the indulgence of the consumers. Senator Burrows had pointed out the fact that showing the difference in wages paid in the tobacco industry in the United States and Asia Minor. These figures are instructive, but we would suggest that, next time the Argus feels a desire to add chili con carne to publication, let him do it in a public manner as an authority. Here they are:

United States.	Per month.	Per day.
Start of 1851.	\$1.00	10c
End of 1851.	\$1.00	10c
Start of 1856.	\$1.00	10c
End of 1856.	\$1.00	10c
Start of 1857.	\$1.00	10c
End of 1857.	\$1.00	10c
Start of 1858.	\$1.00	10c
End of 1858.	\$1.00	10c
Start of 1859.	\$1.00	10c
End of 1859.	\$1.00	10c
Start of 1860.	\$1.00	10c
End of 1860.	\$1.00	10c
Start of 1861.	\$1.00	10c
End of 1861.	\$1.00	10c

These figures will be especially interesting to workmen.

Concerning Prosperity. The *Philadelphia Record*, second to no one because completely prospered has not followed the election of McKinley. One of the earliest steps toward restoration of the prosperity is the eradication of the destructive legislation enacted under the last Democratic Administration. Unfortunately for the country the Republicans do not possess a majority in the Senate when debts are inevitable. The situation even in that body, however, is favorable for the final termination of a law that has utterly destroyed bush meat.

But in discussing the question of prosperity it might be well for these Democratic critics to reflect what would have been the condition of the country had Bryan and his crew been successful. Then came the Democratic campaign following upon the actual experience with Democratic legislation gave the country a scare from which it will require some time to fully recover. The election of McKinley did much toward the restoration of confidence, and seems to indicate that time will do the rest.

Butcher's Talkman. Senator Tilman, of South Carolina, a member of the confederacy, but he is getting along the way now that can hardly prove good. He's fired up all sorts of talk in the Senate, the other day only to get stung himself. When a man passes as a "candid" of Senatorial honor it is quite singular that his own reputation should be above reproach. Tilman has been recognized as a loud-mouthed demagogue ever since the people of South Carolina indicted him upon the Senate, but if we may accept the statements of ex-Senator Butler of the same State this is not the worst charge laid at his door. In an open letter given out last week ex-Senator Butler says if Guy Tilman, as chairman of the Board of Control of the State Dispensary, did not receive thousands of dollars in rebates from dealers and fail to account for the sum, he was at least negligent in his official duty, which required him to inspect the state's tobacco.

The attention of Senator Tilman may be called to the charge he claims that "the people" are answerable for the election of Mr. B. Butler, but not very happily. Tilman, in one of his letters recently made this singular admission. "I am deeply sorry to my house and them, as did Gov. Evans, and I presume the present State Board of Control does likewise, and I have no apology to make

for it." The *New York Times* quotes him as follows: "I am deeply sorry to my house and them, as did Gov. Evans, and I presume the present State Board of Control does likewise, and I have no apology to make

### BANEFUL INDIGESTION

#### THE DISORDERS IN GASTRO- THE BLOOD

If we only knew how dangerous  
addict and rubbish a disease indigestion  
is, we would not wait so long before  
endeavoring to cure it.

The following are the more dangerous  
causes it is likely to become:

So the sooner we take Shaker Digestive  
Cordial the better it will be, and the  
better will it be.

Ingestion of dangerous poisons  
creates poison in the stomach which  
are absorbed by the blood and it  
carries to all parts of the body.

Those violent and sudden movements  
of the stomach could digest its food. When  
it can't, Shaker Digestive Cordial will  
take care of it.

It is not medicine, but an aid to  
digestion, a pleasant cordial for weak  
stomachs.

Sold by druggists. Ten cents for  
each bottle.

Address for increasing book, The  
Shakers, 30 Brade Street, New York.
